* Assumes customer takes advantage of allowable homeowner's insurance discount for having a monitored burglary and fire system (national average discount of \$250/year)

Top of the Line Equipment You Can Trust

Does What It's Told

Home Security Systems Never Sounded So Good

Residential Burglaries make up more than 60% of property crimes in the US. Invasion attempts now happen every 14 seconds with the majority occurring during the day when the homeowner is away at work earning a living the right way. There isn't a question that alarm security systems have become a necessity.

FBI studies have proven that employing a security system decreases the attempt of a burglar 15 times, because nearly all home invasions are not committed by a "professional" thief, but rather young adults who are unsophisticated and unwilling to test the

deterrent capabilities of an alarm system. Provided a choice, they are going to the neighbor that doesn't have an active alarm.

With these statistics, supported by the news we read daily, one would think nearly everyone has an alarm system. Remarkably, only 20% of American Households employ a security system which is a great up-side sale opportunity.

All of our Trust Alarm protection packages are professionally installed and operationally verified. None of our home security systems are self-installed or do-it-yourself. Trust Alarm provides a professional

installation on every alarm system at no additional cost to our customers. To accomplish this, Trust Alarm has created a nationwide network of certified Monitronics installation technicians that are professional, bonded, licensed, and insured.

Mobile Services with Alarm.com provides worry free security wherever you go.

Home Security You Can Take With You!

Packages to Fit a Variety of Home Protection and Budget Needs

Trust Alarm not only prevents burglary, but protects against the threats of fire and personal assault, and provides medical assistance in the event of an accident, with 2-way verbal communication and UL-Rated Call Responders on staff 24/7. All of this, with a professional, licensed installation included, and the best-of-breed name of General Electric (GE) on the installed product.
