Consult with Certified Doctors via Video Conference or Phone

Ocenture's Telehealth program gives members access to top quality healthcare and savings, wherever and whenever needed. Our program includes a network of U.S. board-certified doctors who are available to resolve medical issues by phone or online video, 24 hours a day, 7 days a week. Our doctors can diagnose, recommend treatment and write non-DEA controlled prescriptions.

In addition, Ocenture's Telehealth program includes special savings and discounts on health care needs such as prescriptions, dental, vision, labs and more. Our Prescription Savings Card allows members and their families to pay a discounted fee at the point of service for both name-brand

and generic prescriptions at widely recognized participating pharmacy locations nationwide, including independent and local neighborhood pharmacies.

Ocenture's Telehealth program is not insurance, but simply a better way for individuals to get the care they need quickly, easily and cost-effectively.

- **No Inconvenient Doctors Office Visits**
- **No Wasting Time in Waiting Rooms**
- **No Expensive Copays or ER Fees**
- **Just the Answers and Treatment Needed**

Certified Physicians Available **24/7, 365 Days a Year**

Medical Savings

Ocenture's Telehealth program provides members with convenience and cost savings to traditional doctor and hospital visits. For one low monthly price members save time and money when needing medical care. A recent survey showed the value of a Telehealth program.

If you didn't have Telephone Access where would have you gone for care?

- Urgent Care: 41.27%**
- Primary Care: 38.53%**
- No Treatment: 11.31%**
- Emergency Room: 7.79%**
- Specialist: 1.18%**

The Ocenture Telehealth platform is a fraction of the cost of Urgent Care, Primary Care and Emergency Room visits

and what's worse is not getting treatment at all. With today's fast moving viruses and limited access to health systems it is important to identify and treat a potential problem before it becomes a major health issue.

Healthcare On Your Time

Ocenture's Telehealth platform is built for member convenience. No need to wait hours at the doctors office, urgent care facility or emergency room.

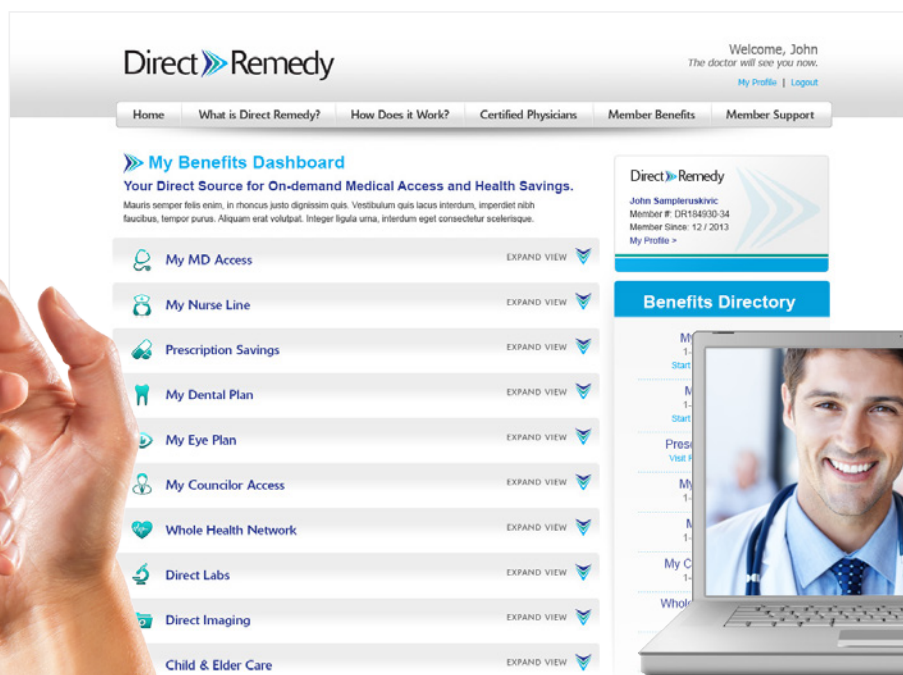

Members don't have to leave work in order to consult with a physician. With Ocenture's Telehealth platform members get timely treatment - resulting in reduced workforce absenteeism, and decreased probability of spreading infections to other employees, friends or family members.

A study entitled, *Treading Water: Americans' Access to Needed Medical Care*, showed that 81% of patients did not get Physician Care because of time and no immediate access to local care providers.

- No Timely Appointment: 33%**
- After Hours: 24%**
- Couldn't Get Doctor on Phone: ... 12%**
- Doctor Office To Far Away: 12%**

Secure & Easy to Use

Our platform is HIPAA compliant and very easy to use. Members simply log into our Telehealth platform via a computer, tablet or smart phone and simply select phone or video consultation. Within minutes you are on your way to great healthcare. We are changing the way healthcare is performed.

No More Waiting Rooms and ER Fees
